“ *Where does a sister begin. I'm not doing very well trying to accept that you are no longer be around, along with our other brother Ed has also been called home. I guess mom and dad were watching when the street lights came on, because you know you would get your ass whipped if you went home. I have been remembering all the games we would play outside because mom kicked our butts out side to after chores were done to find something to keep us busy and out of her hair.*

*There was horse shoe games, lawn darts, softball, kickball, dodge ball, tag, hide and seek. Riding our bikes to Wasbash Park to either go fishing or swimming.*

*We felt so safe and care free growing up in Ferguson Mo. Those days were amazing.*

*Ken you and I were so close as we grew up and you always had my back.*

*After mom and dads passing and your move to Perryville we started to pull apart.i had so much going on with my own children and grandchildren I didn't have much time to even think. Much less had the time or money to come see you and our amazing sister Nancy. I cannot say*

*I cannot say how PROUD I am of the #9th child Nancy Ann Palmer. After your move to Perryville and you started getting sick it was Nancy who took care of any and all Dr appointments, surgeries and chemotherapy you need to stay with us almost 10 extra years. I'm not sure how I like being the eldest child left in our family here on earth. I have lost 2 older and 5 younger siblings now and I am only 63. Why was everyone taken from Nancy and I at such a young age. As they say only the good die young. I guess I must be the bad one that will live to be 100>+. I love you Ken and I will miss you so much. RIP give everyone my love and let mom and dad know I will do my best to keep together.*
