“ I am so sorry for your loss of dear Margaret. She was a great teacher who loved her students. I taught 7th grade while Margaret taught 6th for many years. We shared a love of teaching mathematics. She shared her love of animals with students and faculty. I fondly remember our faculty volleyball games when she would bring her dogs as our mascots showing their school spirit with bandanas. I saw her on out 2 years ago in the nursing home and was impressed that she wS keeping busy with reading - proofreading,I think. She will be missed.

Marsha Lintner - December 07, 2021 at 07:11 PM

“ Margaret taught my children and of course we have special memories of her too....her humor,her kindness, of her pets and of course through 4H and the Saddle Club. Only she could dress her horse in pajamas for the 4H horse show! Much love when we think of her and I'm sure she is on a good ride.

“ I had the privilege to be both a student and a colleague of Miss Battefeld. Math was never my strongest subject but she made it easier to understand. Her students never feared asking her a question when it came to math. A sign of a good teacher is comfort when it comes to learning. In that case she was a great teacher. As a co-worker Miss Battefeld would make you laugh at the stories she could tell about her many years in education. She remembered all the details about each student she taught especially the ones who came back to Perryville teach. She made us feel welcomed into a place she dearly loved.

“ I've known Margaret for over 50 years. She was not the person I expected to be in my room in Dearmont as I moved in that day in the fall of 1971. But I quickly decided that this would turn out to be one of the luckiest days of my life. I will miss Margaret more than most people will ever know but I am so glad her pain is over and she can again have enjoyment. I am quite sure that if you can have a trail ride in heaven, she has already organized one.
